Thematic Meeting 3: Use of ICT/Bid Data

ALFONSO VEGARA
FOUNDER AND HONORARY PRESIDENT
FUNDACION METROPOLI

PhD in City and Regional Planning; degrees in Architecture, Economics, and Sociology. Former President of ISOCARP -International Society of City and Regional Planners- which has members in over 70 countries. He is Fellow and Trustee of the Eisenhower Fellowships; he’s also been appointed as Honorary Consul General of Singapore in Madrid since 2005.

Alfonso Vegara has been lecturing Urbanism at the Escuela Técnica Superior de Arquitectura de Madrid, Universidad de Navarra, and Universidad CEU San Pablo. He was also a visiting professor at the School of Design of the University of Pennsylvania, and Advisor of ETH Zurich Polytechnic.

His ideas and projects have been disseminated through more than 30 books and International Conferences in Europe, The United States, Latin America, Asia, Australia, and Africa. His projects have been awarded prizes by The United Nations, The European Union, The European Council of Spatial Planners, Architects’ Associations, Entrepreneurial Associations, Cities, and National Governments. Among these awards is the “Rey Jaime I” prize, given by the King of Spain to recognize Alfonso Vegara’s contribution to the fields of Urbanism and Sustainability. He has also been awarded on three occasions with the prestigious “European Award of Planning” for his work in Euskal Hirla, The Basque city region and the design of the eco-city of Sarriguren in Navarra. He’s been granted the “Public Service Star Award”, given by the President of Singapore in 2017. Member of the Jury of the “Lee Kuan Yew World City Prize” and current President of the jury at the “European Regional and Urban Planning Awards”. He’s been an advisor for more than 15 years to the Government of Singapore, as well as of various cities around the world, including: Yokohama, Mexico DF, Bilbao, Buenos Aires, Kuala Lumpur, Sao Paulo, Casablanca, Moscow and Medellin.

Alfonso Vegara is the Founder and Honorary President of Fundacion Metropoli, an international center of excellence dedicated to research, design, and innovation in cities around the world. Fundacion Metropoli has an alliance with Microsoft in order to work in different cities of the world at the intersection between Territory and Technology. In 2016, the institution ended the project “Caribbean Diamond of Colombia” which has been awarded by the Smart City Expo World Congress in Barcelona in 2015 as the “Innovative Idea Award of the Year”, and also with the prestigious “2017 Global Award for Excellence” by the International Society of City and Regional Planners.

The focus of Alfonso Vegara’s work is to promote strategic values of cities and their future opportunities in a complex and interrelated world. His ideas and projects are presented in the books he has written: “Territorios Inteligentes” and the recently “Supercities. The Intelligence of Territory”; this last publication received the Gerd Albers Award for best book of 2016 by ISOCARP.
Mr BUI Viet Duong was born in 1979 in Hai Phong, Vietnam. He earned both a Bachelor degree of engineering and a Master degree of engineering in the same field of telecommunication in 2002 and 2005, respectively.

From 2005 to 2008, he worked as specialist in the Department of Information and Communications in Hochiminh City (DIC) in charge of local government administration relating to postal and telecommunications sector.

Since 2008, he has been appointed to head of Post and Telecommunications Division in DIC which mainly involve in assessing telecommunication projects, coordinating with relevant authorities to inspect, examine the implementation of regulations on rates, standards, quality of services in the local telecommunications and internet fields as well as consulting the city leaders in planning and developing the telecommunication infrastructures, etc. Recently, he has participated in some initiatives and projects relating the master plan of Smart City in Hochiminh City.
Kris Moon leads project planning and communication at the Seoul Urban Solutions Agency (SUSA) to optimize Seoul urban solutions according to the needs of the cities that can benefit from Seoul’s growth experience. She comes to SUSA with a diverse professional background ranging from strategic planning at multinational corporation to small IoT venture, international development NGOs and urban development. Kris started her career in the international development sector working for Save the Children and Program for Appropriate Technology in Health (PATH) to increase the efficiency and prolong the impact of service delivery to the fields in need. For eight years at Samsung Electronics, her time was dedicated in strategic planning to achieve the corporation’s ambitious online and offline marketing goals as well in changing the fabric of corporate culture to be more demand & need-oriented. Kris is also keen on integrating smart ICT solutions in realizing urban development, and strives to weave together her diverse experience and knowledge for that purpose. She earned her bachelor's degree in History from the University of Maryland and Masters of International Affairs at Columbia University with concentration in Urban Policy.

Dionisio C. Ledres, Jr is at present the Assistant Regional Director of the National Economic and Development Authority (NEDA), in the Central Visayas Region of the Philippines. NEDA is the Philippine's socio-economic development planning agency. By virtue of his office, he also serves as the Secretary to the Central Visayas Regional Development Council, the highest policy-making body in the region. The council, where NEDA serves as the Secretariat, is where development issues are discussed, and interventions through policies, plans, programs, and projects are formulated and implemented.

Under the guidance of the Regional Director, he leads the NEDA regional office in: providing sound technical advice to council members, formulating and implementing socio-economic, land use, and physical plans; reviewing project and program proposals; mainstreaming of DRR/CCA in local planning; assisting post-disaster rehabilitation and recovery work; monitoring project implementation; and in working with local government units, national government agencies, the private sector, and civil society groups in pursuing other development initiatives in the region.

He is also actively involved in the Metro Cebu Development and Coordinating Board, a multi-sectoral grouping, where metropolitan issues and concerns on governance, traffic management, solid waste management, flooding, housing and shelter, and urban infrastructure needs of Metropolitan Cebu are discussed and addressed.

The early years in his career, Mr. Ledres worked for the country's Department of Agriculture as an agricultural development researcher and also an agricultural extension specialist. Aside from working in government, Mr. Ledres successfully managed a company providing geographic information systems services (GIS) to local government and national government agencies providing support in their work on land use and masterplanning activities, among others.

For his education, Mr. Ledres has a bachelor's degree in agriculture science, did graduate studies in economics, and earned a masteral degree in leadership and management.
