## Yokohama City's initiatives in the field of medical care

Yokohama is one of the international trading ports that was opened 160 years ago when Japan first opened up to the world. It is a city that adopts a forward-looking attitude and actively seeks to incorporate new things. The same applies to the medical field. Through popular designs, Yokohama City is putting effort into publicizing the healthcare sector in collaboration with the private sector, in order to encourage the public to take greater interest in the medical field. This initiative is titled "The Medical Perspective Project (Iryo-no-Shiten)". More than 100,000 foreign residents now live in Yokohama. One of our important goals is to ensure that these foreign residents can receive medical treatment with peace of mind. This leaflet is also a part of this new initiative.
