	Automatic feeder	Per cubic meter	¥370
	Minimum supply volume: 20 cubic meters (except water supplied by an automatic feeder)		
Water transported	Section A	Per cubic meter	¥730
	Section B	Per cubic meter	¥1,095
	Adjacent areas other than Sections A and B	Per cubic meter	Add ¥365 to the rate applicable to Section B for every nautical mile as measured from the west lighthouse at the Daikoku breakwater.
	Minimum supply volume : 50 cubic meters		
Additional charges	(1) Sundays, Saturday, National holidays, January 2,3 and December 29 through 31 (2) From 17:00 to 08:30am in the next morning on weekdays		50% extra

Note: Coins available for the automatic water feeders are sold in the seafarers' co-op in each pier.

Charge for minimum supply volume shall be applied, even if the volume of water supplied at one time is less than the volume of minimum supply water.

Section A: The area encircled by a line connecting the lighthouse at the Honmoku breakwater, Yokohama, with the west lighthouse at the Daikoku breakwater and the southern end of No. 11 of the Daikoku pier, a line connecting the Daikoku pier with the western end of the Daikoku sea wall and the southern end of Ensuiiko Seito and also by the shoreline.

Section B: The area encircled by a line connecting the southern end of Ensuiiko Seito with the western end of the Daikoku sea wall, a line connecting the Daikoku pier with the southern end of No. 11 of the Daikoku pier and the west lighthouse at the Daikoku sea wall, a line connecting the Daikoku breakwater with the east lighthouse at the Daikoku breakwater and the end of the west breakwater at Ogishima, a line connecting Ogishima with line A and by the shoreline.

(Note) All the rates calculated according to the above table shall be multiplied by 1.05 (the amount of a consumption tax, but it excludes the tax-exempt ocean-going vessels) and any fraction less than one yen arising therefrom shall be omitted.
The consumption tax rate will be 8% from April 1, 2014
